**Benefit the Spreader!**

# Spreader TP ECO

- Spreader for small seed, with KTL-powder coated frame with a 50 x 50 square tube
- 90-lit (Standard) plastic hopper with sealed cover, easy emptying and litre indication;
- Stainless steel spreader plate and feeder;
- Equal output and seed adjustable;
- Agitator;
- Adjustment of spreading schema on the spreader plate;
- Electric drive from tractor battery (12V);
- Electric switch (motor) operated with feeder (240N)
- Heavy duty spreader plate motor (2.700 rpm, 200W-required amperage: to start 15A - in service 5A to 20A)

## OPTIONAL

- 60-or 105-liter hopper
- 130-liter hopper
- 3-point frame
- Grubber-frame

## CONTROL UNIT (in cab):

- On/OFF;
- Feeder open/close;
- Cable length 7m

# TP Schnecken-Security

- Seeding unit GALVANIZED with 50x50 square tube;
- 90-lit plastic hopper (Standard) with sealed cover
- Spreader plate stainless steel;
- Adjustable throw plates;
- Electric drive from 12V battery;
- Heavy duty motor for spreader plate;
- agitator
- Standard seedroll mounted;
- Stepless adjustment of rotation speed of spreader plate (working width)
- Electric drive of seed roll with separate motor
- Adjustable hand over point on spreader plate
- WORKING WIDTH 2,5-28m

## OPTIONAL

- 60-or 105-liter hopper
- 130-liter hopper
- 3-point frame
- Grubber-frame

## PROFI control unit (in the cab)

- Potentiometer 1: adjustment of seedroll rotation for requested output amount
- Potentiometer 2: adjustment of spreader plate rotation for requested working width
- cable lenght: 7m

# PROFESSIONAL

Excellent usage of this spreader was opened by Danish farmer. He placed two spreaders on sprayer. What's the matter of such cunning combination? The point is to reach top harvest - you should think about the future! In other words, if in crop rotation for the next year sugar beet is planned you should prepare the soil. That is why at last wheat spraying make oil reddish seeding. After wheat harvesting oil reddish have time for germination, this plant will be used as a green manure which can be used as humus, saving important nutrients for sugar beet. In winter time it will be excellent protection from erosion and siltation. Spring time make sugar beet seeding without ground opening.

- Spreader for small seed, with KTL powder coated frame with a 50x50 square tube
- **90-lit. plastic hopper (standard) with sealed cover**
- easy emptying and litre indication
- Stainless steel spreader plate and feeder
- Equal output and seed adjustable
- Adjustment of spreading shema on the spreader plate
- Electric drive from tractor battery (12V)
- Electric switch (motor) operated with feeder (240 N)
- Heavy duty spreader plate motor (2700 rpm, 200W),
- required amperage: to start 15A - in service 5A to 20A

## **CONTROL UNIT (in cab)**

- ON/OFF
- Feeder open/close
- Stepless adjustment of rotation speed (Adjustment for working width)
- Cable length 7m

# TP CONVENIENCE

Version same as TP-PROFESSIONAL

- Spreader for small seed, with KTL-powder coated frame with a 50x50 square tube
- 90-lit plastic hopper (Standard) with sealed cover, easy emptying and litre indication
- Stainless steel spreader plate and feeder
- Equal output and seed adjustable,
- Agitator
- Adjustment of spreading schema on the spreader plate
- Electric drive from tractor battery (12V)
- Heavy duty spreader plate motor (2700rpm, 200 W
- required amperage: to start 15A-in service 5A to 20A)!

## Control unit (in cab)

- ON/OFF
- Feeder open/close
- Stepless adjustment of rotation speed (Adjustment for working width)
- Cable length 7m

## OPTIONAL (in cab)

60-or 105-lit hopper  
130-liter hopper  
3-point frame  
Grubber frame  
Spread limitation plate

## **OKO-TURBO**

- 12V drive from tractor battery
  - WITHOUT FAN
  - Selective 2,3,4 or 5 outlet tubes
  - 90lit. hopper std. incl. sealed cover
  - 60lit, 105lit, 130lit. hopper (optional)
  - 12-Vdrive from tractor battery
  - Adjustabel flap
  - electric seedroll motor
  - Standard seedroll mounted Agitator
  - For small seed and micro granulates
- Working width max. 1,8m

**TEL.: +43 3472 21120, FAX +43 3472 21123, TECHNIK-PLUS@TECHNIK-PLUS.EU**

## **ÖKO-AIR**

- Multifunctional seeding unit stainless steel with 50x50 square tube
- 12V single fan
- Selective 2,3,4 or 5 outlet tubes (DM 30mm)
- 6 or 8 outlet tubes (DM 25mm)
- Incl. hoses and spreader plates
- 90lit. (standard) hopper incl. sealed cover
- 12V-drive from tractor battery
- Adjustabel flap
- Electric seedroll motor
- Agitator
- For small seed and micro granulates
- working width 1-6m

## **WINTER-PROFI**

*For the distribution of salt, sand and split!*

The sower is used for sowing sand, salt and small shredded stones on to showed roads or parking places. Tank is made of rigid plastic material. You may order thanks of the following volumes: 60, 90, 105,130 or 130-lit

Dosing unit is made of high quality stainless steel.

The sower is controlled with control panel from the tractor's cabin.
